Response to Amendment

Claims 1-7, 9, 14 and 27-71 are presented for examination.

Applicant's argument filed on 08/31/2005 has been fully considered but it is not deemed to be persuasive.

Claim Rejections - 35 USC § 112

Claims 1-7, 9, 14, 45-71 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant introduces the new matter by adding:

A driving circuit having at least one first terminal; and an integrated circuit having at least one second terminal, wherein the first terminal and the second terminal face each other, and are electrically connected via a conductive material.

The added matter(s) is(are) not supported in the Specification and it (they) (is) are not satisfactory resolved and consequently raise doubt as to possession of the claimed invention at the time of filing.

Claim Rejections - 35 U.S.C. § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

New claims 27-44 are rejected under 35 U. S. C. § 102 (b) as being anticipated by US Patent Application Publication No. 2003/0231263 to Kato et al.

Claims 27-44 are rejected for the same reason as set forth in the previous Office Action.

Therefore, for the above reason, it is believed that the rejection should be sustained. Feature of an invention not found in the claims can be given no patentable weight in distinguishing the claimed invention over the prior art.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the

advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
